

**667-0 Policy**

An academic appointee may receive additional compensation for services rendered in connection with extramurally funded research projects undertaken by the University, unless the terms of the appointee's University appointment prohibits acceptance of additional compensation.

**667-16 Restrictions**

Agency (e.g., NIH, NSF) maximum salary caps must be observed and State funds may not be used to pay for any gap in compensation between agency maximum salary caps and the total compensation received, other than the Health Sciences Compensation Plan Scale 0 that may result from such maximum amounts.

**667-18 Rate**

Additional compensation for extramurally funded research is computed at a rate equivalent to the appointee's total negotiated salary in effect at the time the research is conducted. Academic-year appointees may receive additional compensation of up to one-third of the annual salary (see [APM - 600](#), Appendix 1, for guidelines on calculating the rate of compensation for academic-year appointees). Fiscal-year appointees may receive additional compensation of up to one-twelfth of the annual salary (see [APM - 600-14-c](#)). This is in effect for appointments made July 1, 2014 or later. Those appointed prior to July 1, 2014 to the Professor, Astronomer or Agronomist series are eligible for payments of up to one-eleventh of the annual salary of a fiscal-year appointee.
