Public Scholarship and Engagement

Public scholarship is broadly defined as research, teaching, and learning that has an impact for publics beyond the university.

This work is broad and inclusive of different forms of scholarship, including research and creative activity, teaching and learning, equity and leadership.

Statement of Contributions to Public and Global Impact

“Faculty scholarship includes engaging locally, regionally, nationally, and internationally, but the full breadth and impact of that work is not always appreciated or easily understood by those who evaluate their merit and promotion dossiers. It is important to understand, visualize, and evaluate the scope of faculty activities that fall under these cross-cutting and high-priority areas for the university.”

- *Academic Affairs*

Why document public and global impact *systematically* using this statement?

- Think beyond “service”
- Explain the *full impact* of activities across research, teaching, and service
- Make that impact legible to reviewers at all levels

TELL THE STORY OF IMPACT

Cross-Cutting Examples of Public and Global Impact

Research

- **Publish** with colleagues abroad or with community partners
- **Collaborate** on research grants or projects with international teams and/or community partners
- **Win** prestigious awards for global or public scholarship

Teaching

- **Design** innovative courses with robust global learning or community engaged elements
- **Direct** internships with international, national, or or local partners
- **Mentor** students in public and/or globally engaged scholarship

Service

- **Influence** local, national or international policymaking
- **Organize** conferences with international or local partners, and/or on the topic of public scholarship
- **Serve** as UC Davis faculty champion for an agreement with a community -based institution (international, national, or local)

The “Impact Factors”

- Enhanced faculty and institutional impact in metrics and rankings
- Access to more opportunities for extramural funding
- Global and local innovation, empowerment, and transformation; uptake into policy/management decisions
- Attract and retain diverse faculty, staff, students
