Professor of Clinical ____
Professor of Teaching
Acting Professor
Adjunct Professor
Health Sciences Clinical Professor

Department will submit to the dean's office the information listed below through MyInfoVault (MIV):

___ Action Form

___ Department recommendation, a well-documented letter containing:

- a. Concise evaluation of candidate's achievements in teaching, research, and service, as applicable.
- b. Statement delineating the academic responsibilities of the position.
- c. Report of the nature and extent of consultation and the vote of faculty members in the department. A separate department letter is required containing the vote and comments from eligible non-senate faculty for the Adjunct Professor and Health Sciences Clinical Professor series. Reasons for negative votes should be addressed in the department letter. Strongly recommend that all written comments be appended to the department letter.
- d. For Adjunct Professors the letter must include the percent distribution of research and teaching.

NOTE: OPTIONAL – The Criteria of Scholarship should be appended to the Department letter or referred to in the Department letter.

___ For Adjunct Professor only: Include *Notification of advancement eligibility for an Academic Federation member*, appended to the department letter in MIV.

___ Peer Evaluation of Teaching Letter. A substantive peer evaluation by one or more department or other campus colleagues should involve an analysis of classroom teaching, as well as an assessment of teaching materials, assignments, and examinations.

NOTE: For faculty in the health sciences, peer evaluation may include analysis of direct clinical patient care, operating room procedures, hospital rounds, research mentorship, and residency program teaching sessions.

___ Signed Candidate's Disclosure Certificate

___ Extramural Letters. Normally 6-8 letters are adequate. At least half of the letters should be "arm's-length," with the exception of the Health Sciences Clinical Professor series. Include the following:

- a. List of all referees, including academic/professional title and expertise of each referee. Upload into MIV as a Non-Redacted letter.
 - i. This list must identify those nominated by candidate and those nominated by department. If the same name appears on both lists, they will be included on the department list.
 - ii. Indicate which referees are "arm's-length."
- b. Example of the solicitation letter. Do not include the name and address of a referee in the example. Upload into MIV as a Non-Redacted letter.
- c. Extramural letters. Both redacted and non-redacted versions should be uploaded into MIV. The following information should be marked on each of the extramural letters.
 - i. Stamp all letters "CONFIDENTIAL"
 - ii. Each letter must be identified separately by a letter or number that corresponds to the letter or number used in a. above, to ensure confidentiality of reviewers (APM 160).

- iii. Each letter should be identified as being from either the “candidate list” or the “department list.”
- iv. Indicate whether the letter is “arm’s-length” or “not arm’s-length”, according to the opinion of the department chair.

(See APM 210; APM 220-80-c. and UCD 220 Exhibit B for additional details.)

NOTE: “Arm’s-length” letters are from external referees who are independent of the appointee, who are known scholars in the field, and who are able to provide an objective evaluation of the work. Use of external referees whom the reviewers may not regard as objective or independent, either because they are too close to the appointee professionally (collaborators, thesis supervisors, personal friends, teachers, etc.) or because they have a personal relationship with the appointee, may be included if they shed light on collaborations. An effort should be made to contact individuals who have not contributed letters for prior reviews for the same candidate. It is also desirable to have some referees who are familiar with the UC rank and step system since referees from within the University (outside UC Davis) can speak to the issue of the appropriateness of the step. Review UCD 220 IV.F.3. for further information on determining “arm’s-length”.
