OFFICE OF THE CHANCELLOR  
ONE SHIELDS AVENUE  
DAVIS, CALIFORNIA 95616-0558  
TELEPHONE: (530) 754-7237

September 17, 2020

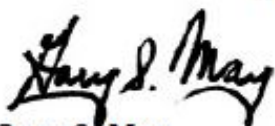

To: All UC Davis Students, Academics and Staff

Our strategic vision calls for UC Davis [TO BOLDLY GO](#) in advancing our research enterprise and achieving the next decade of research excellence. Ensuring the safety of our research community is paramount to enabling and supporting UC Davis' impactful research. People are the most valuable UC Davis resource and their well-being and productivity is supported by a safe working environment. UC Davis has [Principles of Safety](#), which reaffirm our shared commitment to safety at UC Davis.

Creating and maintaining a culture of safety at UC Davis is the responsibility of everyone, particularly managers, supervisors, and academics. To develop the next generation of researchers, while pushing the boundaries of research, requires that all employees and students have received the appropriate safety training and have access to the safety equipment necessary to perform their jobs.

A culture of safety in our work environments is embraced and expected at UC Davis. Accidents cost time, money, and productivity, but most of all, accidents may cost lives. We encourage you to [report any hazards or unsafe conditions](#) you observe on campus or at your work or research locations. Also, actively engage with Safety Services, which offers subject matter experts across a variety of areas, from [Chemical Safety](#) to [Occupational Health](#).

Sincerely,

  
Gary S. May  
Chancellor

  
Mary Croughan  
Provost and Executive Vice Chancellor

Think Safe. Act Safe. Be Safe.
